Internet Report

There were no major changes to the website in the past month. New events were posted. Please send any event flyers or other relevant info to me so it can be posted. While those of us in the area exchange info on Facebook, others rely on our website for current info.

We had an inquiry from the website contact form about meetings near Frierson, LA which I took care of.

The beta helpline at 218 DONT USE is still up for evaluation. Please check it out and give me some feedback on it. We now have a good indicator of monthly costs as Bayou Area reports spending \$10.00 to \$15.00 per month on the same platform. We can use both the existing number and the new one both going to Yap until we decide that the literature showing the old number has cycled through. The reason to change numbers is that calls to a toll free number cost more. With everyone using cell phones now toll free numbers are not required. If feedback is favorable I will bring up a motion to make the change to the new helpline sometime this fall.

All suggestions and feedback on how to make our internet presence better or more effective are welcomed and appreciated.
